SUMMARY STATEMENT

Skilled Front-End Developer with 4+ years of experience building scalable, user-focused web applications across multiple industries. I've led teams, optimized performance, and shipped reliable products including Churchplus (church management system), a custom Learning Management System, and several other real-world web apps. I specialize in Javascript, TypeScript, Vue, React, Next.js, and UX optimization, with a focus on building clean, maintainable systems that grow with the business.
